- You will be prompted to log in to use the library’s electronic resources **only if you are off-campus**.
- The log in screen will only appear after you have attempted to access a library database, ebook, ejournal, or other electronic resource by clicking a link on the library’s website.

- After logging in, you will automatically be logged out after 15 minutes of browser inactivity. If this happens, click the link for the resource you were using and log in again.

Either link will take you to the Reset Password page, where you may request a reminder of your username and reset your password.

- Type the email address you used to register into the Email box and hit Submit.

If you submitted the correct email address, you should see a confirmation message in your browser.

You should then receive an email message from Touro containing your username and two hyperlinks. Click the first (longer) link in this message to reset your password.

You will then be taken to a page where you can create a new password. Enter your new password twice and hit Submit.
